Chapter 1: Our Amazing World: Things That Live and Things That Don't	1
1.1 Living Things.	1
1.2 Non.Living Things.	2
1.3 Computers as Non.Living Things.	4
1.4 Activity	5
1.5 What is Machine	6
1.6 Machine that run on electricity	7
1.7 Machine that don't use electricity	7
1.8 Activity.	8
Chapter 2: Inside the Computer: Exploring the Magic Parts	10
2.1 Parts of Computer.	10
2.2 Activity.	11
Chapter 3: Tap, Tap, Type: Fun with the Keyboard.	12
3.1 Why Keyboard Matter	12
3.2 Activity-1.	12
3.3 Activity-2.	14
3.4 Activity-3.	14
Chapter 4: Staying Happy and Healthy in a Digital World.	16
4.1 Advantages of being digitally active for kids	16
4.2 Disadvantages of being digitally active for kids	18
4.3 Check-in Activity 1.	20
Chapter 5: Our Computer Friends: How We Talk to Computers and How They Talk Back	21
5.1 What is an Input device.	21
5.2 Types of Input device.	22
5.3 What is an Output device	24
5.4 Types of Output device.	25
5.5 Activity 7.	27
Chapter 6: The Raspberry Pi's friendly face: Understand its Interface	29
6.1 The Raspberry Pi's Special Face	29
6.2 What Are Buttons on a Raspberry Pi.	33
6.3 Here's what makes button special.	33
6.4 The Big Difference: Icons vs. Buttons.	34

6.5 Here's how Icons and buttons are different.	35
6.6 Activity-1.	35
6.7 Activity-2.	36
Chapter 7: Mobile Screens and Me: Staying Healthy in a Digital World.	37
7.1 What are Mobile Devices.	37
7.2 Mobile devices help us to do Many thing	37
7.3 Good Things About Mobile Devices.	38
7.4 Taking Care of Our Eyes.	38
7.5 Healthy Body Posture.	39
7.6 Getting Enough Sleep.	40
7.7 Balancing Screen Time and Playtime.	41
7.8 Healthy Habits for using Mobile devices.	41
7.9 Check.in Activity 2.	42
Chapter 8: How does the computer follow instructions	44
8.1 Instruction.	44
8.2 How they worked together	44
8.3 Example.	44
8.4 Activity-1.	46
8.5 Activity-2.	47
8.6 Activity-3.	48
8.7 Activity-4	49

Chapter 1: Our Amazing World: Things That Live and Things That Don't

Everything in our world can be sorted into two main groups: living things and non-living things. Computers are a special kind of non-living thing that can sometimes seem like they're alive!

1.1 Living Things

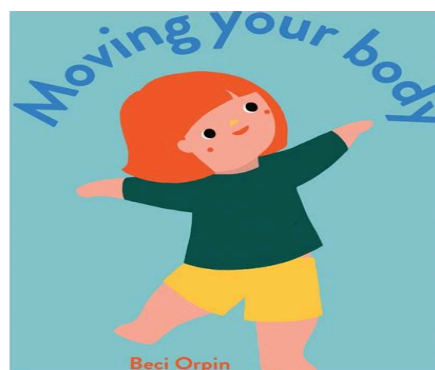

1.1.1 Living Things Grow

They grow bigger and change over time.

1.1.2 Living Things Move

They can move on their own

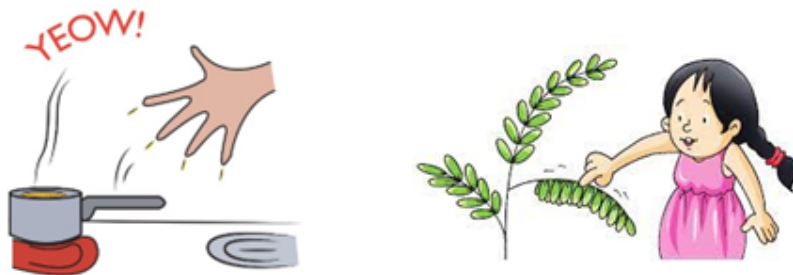

1.1.3 Living Things can Eat and Drink

They need food ,water and air to survive.

1.1.4 Living Things Feel and Respond

They feel things and react to people and situations.

1.2 Non-Living Things

1.2.1 Non-Living Things Do Not Grow

They stay the same size and do not change over time.

They cannot move unless something else moves them.

1.2.3 Non Living Things Do Not Breathe:

They do not need air to exist.

1.2.4 Non Living Things Do Not Eat or Drink

They do not need food or water to exist.

1.3 Computers as Non-Living Things

- Don't need food, but need electricity (like their "food")
- Don't grow, but can be upgraded.
- Can't reproduce on their own.
- Seem to respond, but only follow instructions

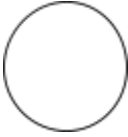

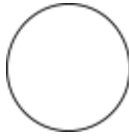

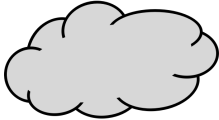

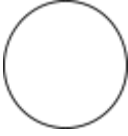

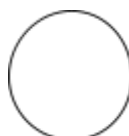

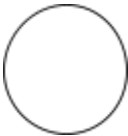

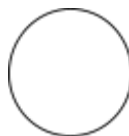

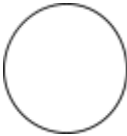

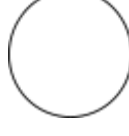

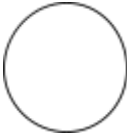

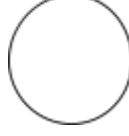

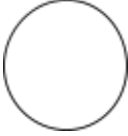

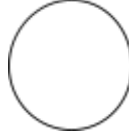

While computers can do amazing things and sometimes seem alive, they're actually very advanced non-living machines created by humans.

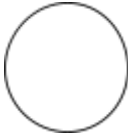

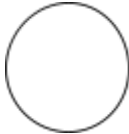

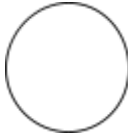

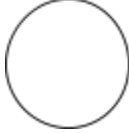

1.4 Activity

Identifying living and non living thing

Look at the things on the left. Color the living things with green and Color the non-living things with yellow.

Items	Living Thing	Non-living Thing
Frog 		
Cloud 		
Flower 		
Butterfly 		
Robot 		
Computer 		

Elephant			
Pineapple			

1.5 What is a Machine?

A machine is a tool that helps us do things easier or faster. A bicycle is a machine because it helps us move faster than walking. Machines come in all shapes and sizes, but they all help us get things done more quickly or easily.

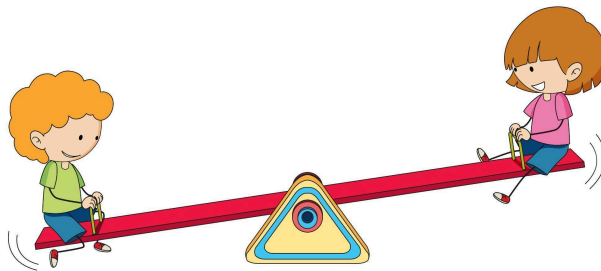

1.6 Machines that run on Electricity

These are machines that use electrical power to function. They need to be plugged into an outlet or use batteries to operate. Examples include: Computers, refrigerators, washing machines, electric cars, power tools, etc.

1.7 Machines that don't use Electricity

These machines operate without electricity. They use other forms of power like wind, water, gravity, or even muscle power. Examples include: seesaws, bicycles, windmills, nutcrackers.

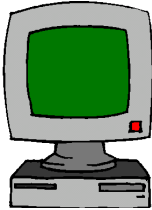

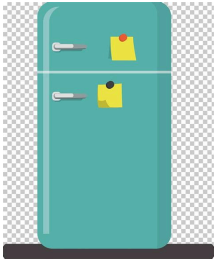

How Machines Help Us:

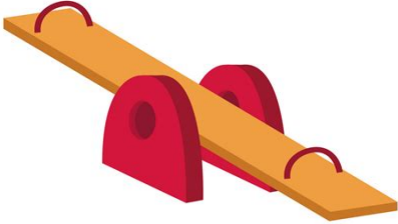

- Save time
- Save energy
- Do things we can't do on our own

1.8 Activity

Fill in the missing letter to complete the word.

1 . 	C__mp__t__r
2. 	Re__ri____ra__o__
3. 	W__sh__n__m__c__i__e

4.		B _ c _ c _ e
5.		S _ _ s _ w
6.		O _ e _
7.		W _ n _ m _ ll
8.		Va _ _ u _ c _ e _ n _ r
